Foreword and Afterword

For this volume, I asked six guest creators to contribute illustrations and manga featuring their original characters in topless boxing. They provided works even more wonderful than I could have imagined. (There were many things I couldn't get to because my own schedule management was stupid, but everyone else [was great].)

From realizing as a child that 'this might be erotic' to discovering that such fetishism officially existed on the internet, and meeting so many creators—I've been in this genre for nearly twenty years, and I am so grateful to everyone I asked to contribute this time. Above all, I wanted to see your topless boxing art! Finding myself surrounded by these works now makes me so happy. I want to keep creating boxing-themed work myself, but I'm glad I was able to make this book packed with exactly what I wanted to see.

It's wonderful, it really is wonderful, so please, take a look.

I want to do this again. Why is this section called 'Afterword' anyway?

He's got no answer for the challenger's nimble footwork!

This absolute champion can't keep up with my movements!

I can do it!!!!

The opponent's punching power is overwhelmingly superior.

But that doesn't matter if you can't land a hit...

You're nothing but a target for a perfect counter!!!!

I can win!
I'll win!
I'm definitely going to win!!!

Was I not enough of a challenge for you?

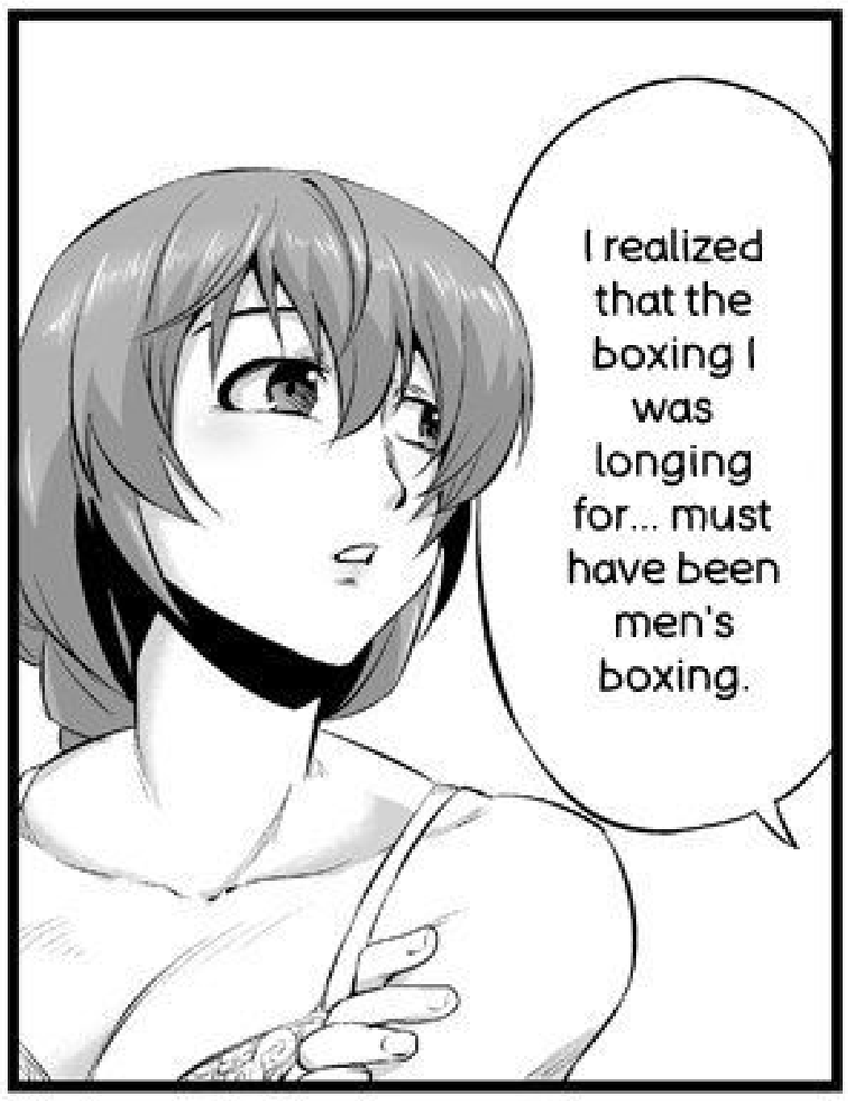
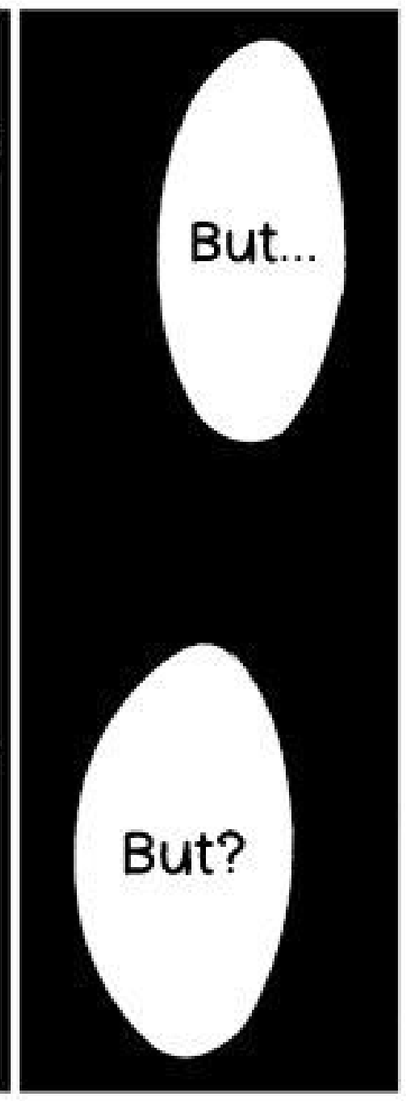
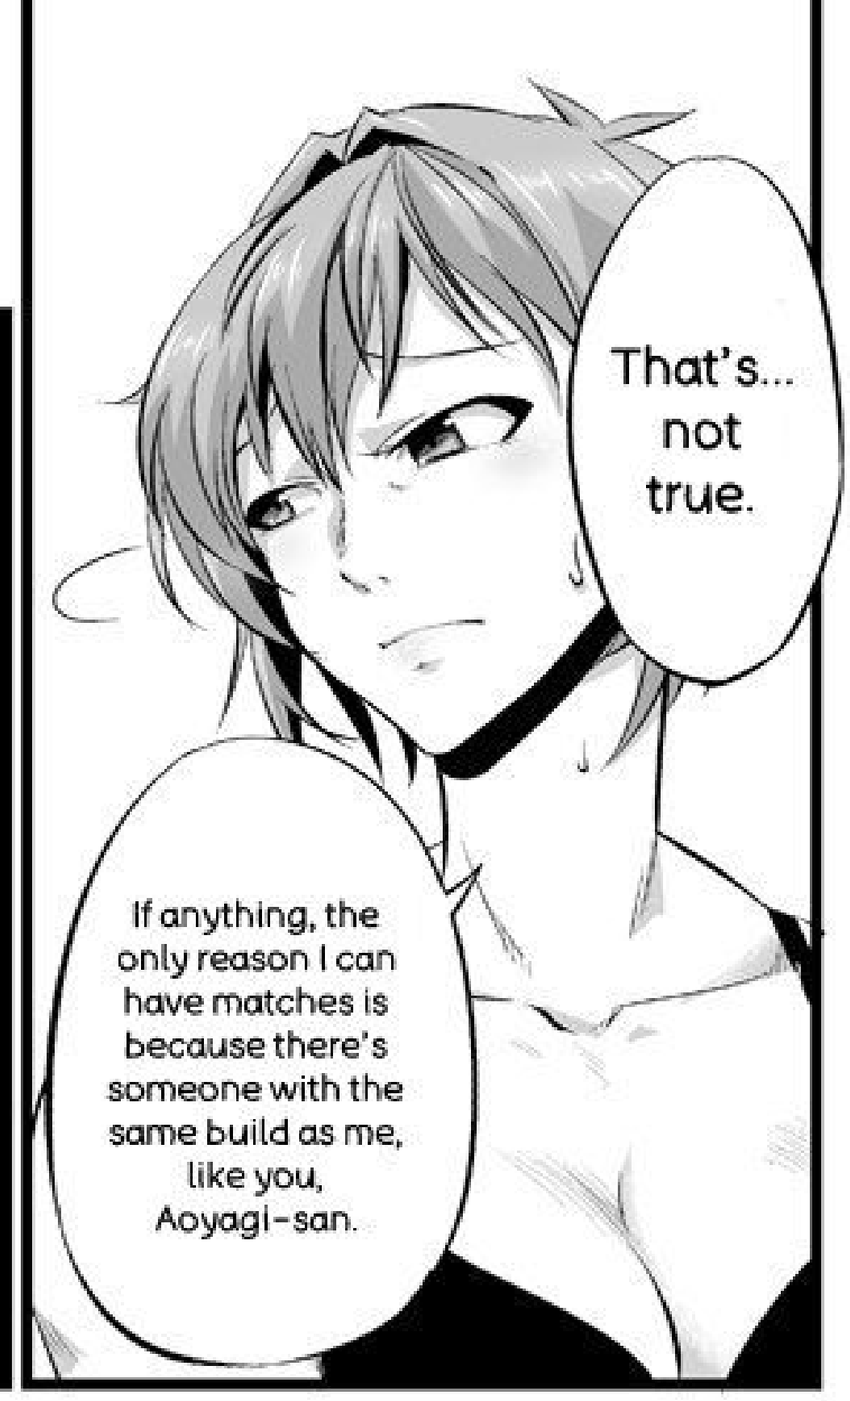
You look dissatisfied, don't you?



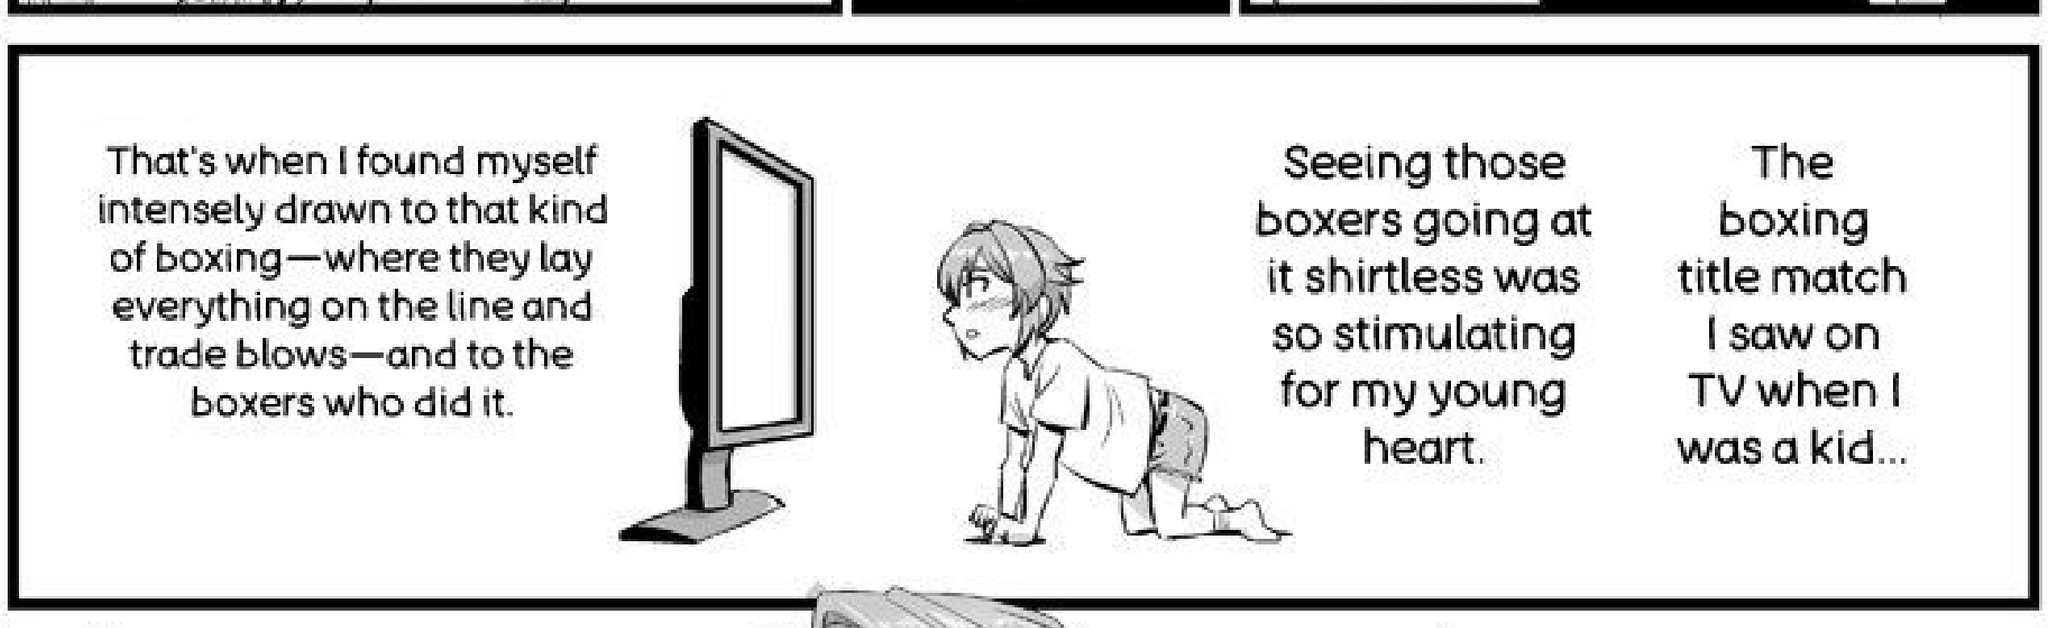
I realized that the boxing I was longing for... must have been men's boxing.



But...
But?



That's... not true.
If anything, the only reason I can have matches is because there's someone with the same build as me, like you, Aoyagi-san.



That's when I found myself intensely drawn to that kind of boxing—where they lay everything on the line and trade blows—and to the boxers who did it.
Seeing those boxers going at it shirtless was so stimulating for my young heart.
The boxing title match I saw on TV when I was a kid...

Then let's do it—let's show them that kind of boxing ourselves...

A fight to the finish where we lay it all on the line.

Ahhh!

The championship boxing match I saw when I was a child

But for me, the most memorable part wasn't the fight or the winner who took home the crown

It was the sight of the loser, pathetically sprawled out after having bet everything on that fight.

Thanks... But that doesn't happen until you beat me, Senpai.

Thank you for sticking with me until the end! And thank you so much to everyone who responded to this project and contributed. I wanted to show off the many wonderful manuscripts that exceeded my expectations right away, but my body couldn't keep up and my planning was a disaster, so I'm sorry for being in such a pathetic state. Ah, I want to do another topless women's boxing book. I'm not good at reaching out to people, so there were actually many more artists I wanted to invite. I want to draw my own work next time and make something like a 100+ page topless women's boxing volume. We want that, right?

Please keep me in mind if there's another opportunity. Thank you for your support.

Thank you so much to everyone who contributed as a guest this time. Over 20 years ago, when I first connected to the internet, I discovered the feeling that 'it's okay to see boxing as something erotic.' I think encountering the works of TOM and Santos was the first time I learned that it was okay to give shape to that feeling I'd probably had since childhood. Many years have passed since then, and while works featuring non-straightforward sex have increased across many genres, I'm looking forward to continuing to see works from people like Sha, who keeps releasing work featuring martial arts and stomach punches rather than just boxing; Shateki Potos; Thalys and amabox, who continuously release various works featuring men, AI, and VA with impressive technical innovation; and so many others who create boxing-themed content. Please let me help out in any small way if the chance arises. I hope to see even more works that find eroticism in stomach-punching, boxing-style beatdowns in the future.
